

SKY-0325-F

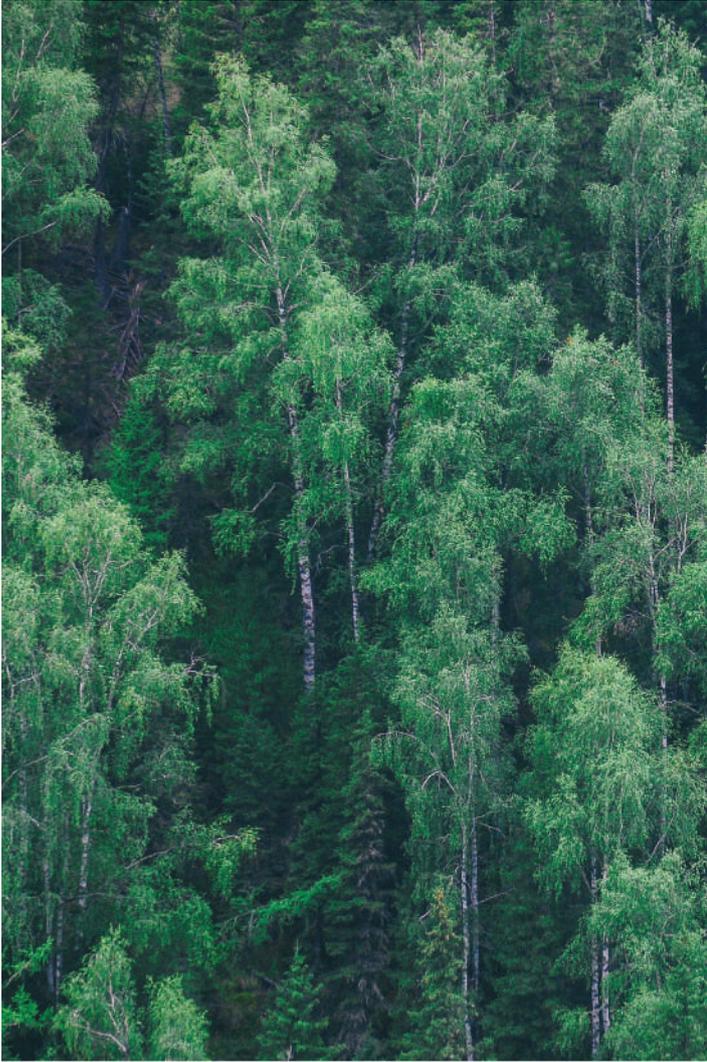

R32

SkyAir

**Single-Split Inverter &
Non Inverter Series**

R32

The Superior Refrigerant

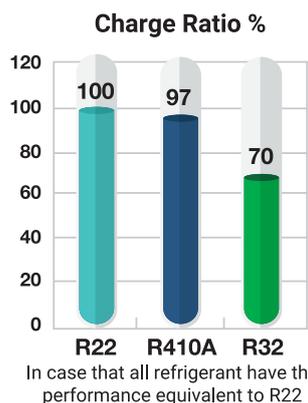

This game changing refrigerant strikes the perfect balance between energy efficiency, ease of use and environmental sustainability; offering distinct advantages across the board. Bringing you comfort and a peace of mind.

Less Impact On Global Warming

The earth retains solar heat in the daytime for warming and then releases this heat at night, allowing it to maintain an optimal temperature range. However, with greenhouse gases increasing, it is more difficult to discharge heat and the planet is gradually becoming warmer. This is called global warming. R32 has only around 30% of the global warming potential of R410A and R22.

Lesser Refrigerant Charge

Potential refrigerating effect of R32 is 1.5 times that of R22 or R410A. More specifically, pressure losses are lower with R32 than R22 or R410A for the same capacity and the liquid density of R32 is also 10% lower. As a result, the charging volume for R32 is approximately 30% less than that of R410A and R22.

	Ozone Depletion Potential	Global Warming Potential
R32	0	675
R410A	0	2,090
R22	0.05	1,810

R32 has zero Ozone Depletion Potential (ODP), and lower Global Warming Potential (GWP) which contributes to the prevention of global warming.

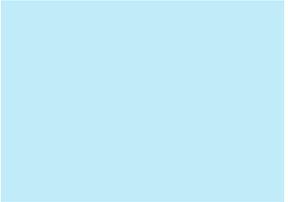

Easy Maintenance and Serviceability

Unlike R410A and R407C, which are mixed refrigerants, R32 is a Single component refrigerant. This means that no composition change occurs, and likewise R22, allows for easy liquid charge and gas charge.

	Composition (Mixture ratio wt%)
R32	Single Component
R410A	R32/R125 (50/50 WT%)
R22	Single Component

Stay In Control. No Matter Where You Are.

Smart Control

GO DAIKIN

Smart
Control

Simplify your life with the GO DAIKIN application. The GO DAIKIN application lets you manage Daikin air conditioners from anywhere, helping to maintain a comfortable home environment while saving energy.

An application that easily allows for the control of your home climate! With just a simple wifi connection, you can now create the perfect climate for your home.

GO DAIKIN

In-Home & Out-Of-Home Function Allows You To Control Your AC At Anywhere Anytime.

GO CONVENIENCE

- In-home & Out-of-home function allows you to control your AC at anywhere anytime.
- Weekly scheduling allows you to set your AC at your preferred timing at a weekly basis.

GO SAVE

- Greater savings can be achieved as you can now smartly monitor your AC energy consumption!
- * Inverter models will be able to view in kW and estimated monetary value while Non-Inverter to view compressor running hours only.

GO COMFORT

- Different operational modes allows you to enjoy the different kinds of cooling experience.

GO SHARE

- User control sharing easily allows you to share your AC controls with your family members through a simple QR code scanning.
- You can unbind the controls or restrict certain app functions of the AC from your family members at any time you desire.

Restaurant

Weekly Scheduling⁴ allows for systematic switching on and off of Air Conditioner at specific times throughout a restaurant's daily and weekly operation, thus removing the repetitive actions of physically using the remote controller every time.

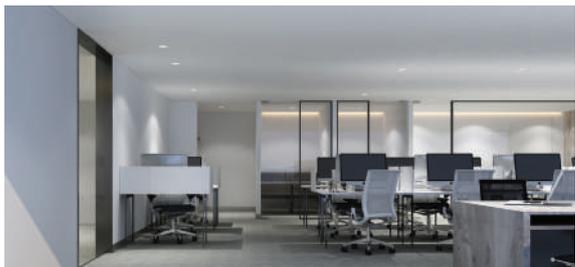

GO DAIKIN

University

Real Time Monitoring helps university building management to understand and monitor live feedback of Air Conditioner status (including on / off status, set temp and error code etc), which enables them to oversee and control the overall A/C usage.

Office

Group Control grants office admins the power to control multiple Air Conditioner in various rooms, section and floors of the office with just a press of a button, thus removing the need to walk across the whole office and individually control each A/C.

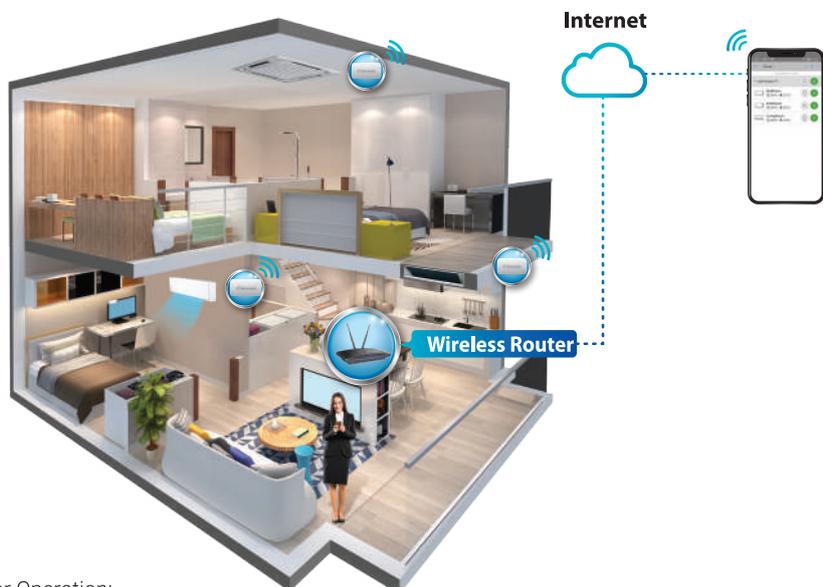

Home

Out-of Home⁴ prepares owners to be welcomed home with a pre cooled living space of maximum cooling comfort by offering control of Air Conditioners from anywhere outside of home.

GO DAIKIN

Built-In WiFi: Ceiling Cassette- FCFC-A, FFC-A, FCC-A
 Optional: Ceiling Concealed: FDMFC-A, FDBC-A, FDMC-A,
 Ceiling Exposed: FHC-A

Functions

- Start/stop operation
- Set operation mode
- Set room temperature
- Set fan speed
- Set airflow direction³
- Monitor current room temperature⁴
- Countdown timer⁴
- Error code
- User sharing
 - Start/stop operation
 - Operation mode and room temperature (maximum of six actions per day, 42 actions in total)

Required for Operation:

Smart Control Subscription:

1. Free 2 years upgrade to Smart Control Pro upon first time successful pairing to network adaptor (AWM61A01). Package will switch back to Smart Control Standard (FREE) after 2 years. User can choose to upgrade to Smart Control Pro with subscription of RM 11.99 yearly per air conditioner.
2. Function includes: On/Off, Operation Mode, Fan Swing, Fan Speed, Powerful Mode, Quiet Mode, Sleep Mode.
3. Only applicable to certain Inverter models only. Please refer to Daikin website page for compatible model list.

GO DAIKIN APP:

- i. For compatible AC models list, please refer to Daikin Smart Control website page.
- ii. A network adaptor (AWM61A01) is required for each indoor unit to use Smart Control function.
- iii. Additional network adaptor is optional for compatible Non Built-In models (refer to i).
- iv. An Internet connection through mobile data or WiFi network is required to use Smart Control function.
- v. Connectivity of App to AC will depend on the effective coverage area of your Local Area Network (LAN).
- vi. This device supports DHCP (Dynamic Host Configuration Protocol) only. Ensure that your router has DHCP server option function activated before pairing.
- vii. The controllable functions and features may differ depending on the model.

Smarter Control, Voice Control.

Enjoy a smarter and more effortless way of controlling your Daikin Air Conditioning using voice control. Multi-task your way through the day by simply saying the commands to your Amazon Alexa or Google Home device while doing your daily tasks.

Just say the words

Hey Google, ask GO DAIKIN to switch On Living Room.

Alexa, ask GO DAIKIN to set Bedroom temperature to 24.

Hey Google, ask GO DAIKIN to turn on Eco mode for Kids Room.

* Full command list is available on the GO DAIKIN app.

DGS01

Compact Wireless Remote Controller

- Supplied together with panel for user convenience.
- Prominent temperature display.
- Real-time clock display.
- Easily accessible buttons.

DSL8M8

Slim Wired Remote Controller (Optional)*

- Dedicated button for Quiet and Turbo functions.
- Key lock function.
- Real-time timer. (7 days option, 2 events daily).
- Comes with 10m wired cable

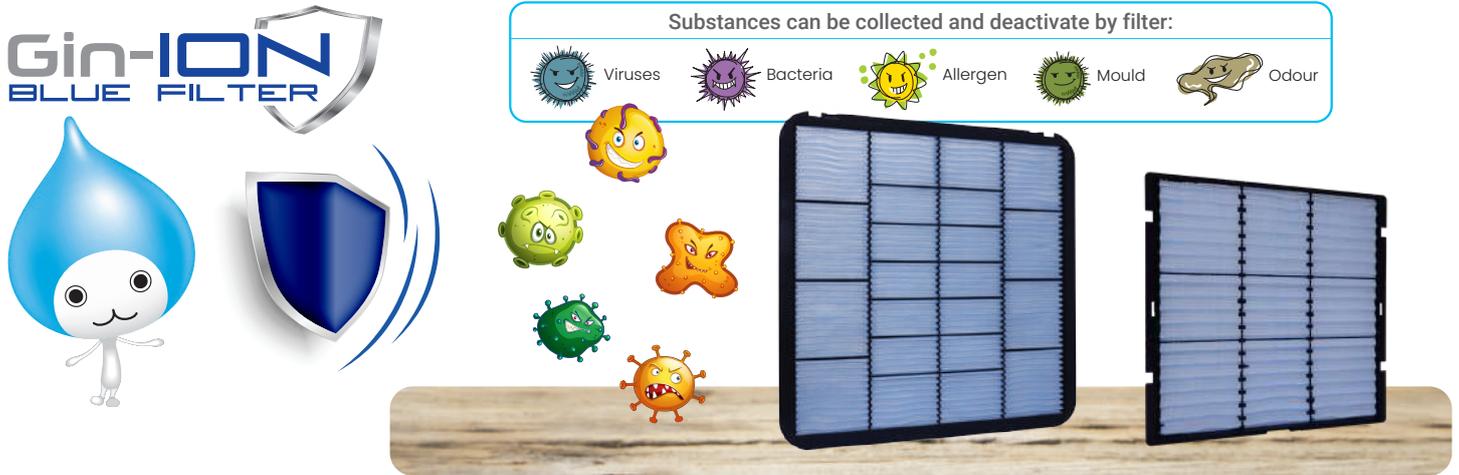

BRC51D61

SHIRO Wired Remote Controller (Optional)*

- Better external outlook with glossy finishing.
- Display with backlight for better viewing.
- Room temperature indication.
- Comes with 10m wired cable

* When wired controller is installed, it will replace the network adaptor connection, removing smart control function.

Product Features

Gin ION Blue Filter

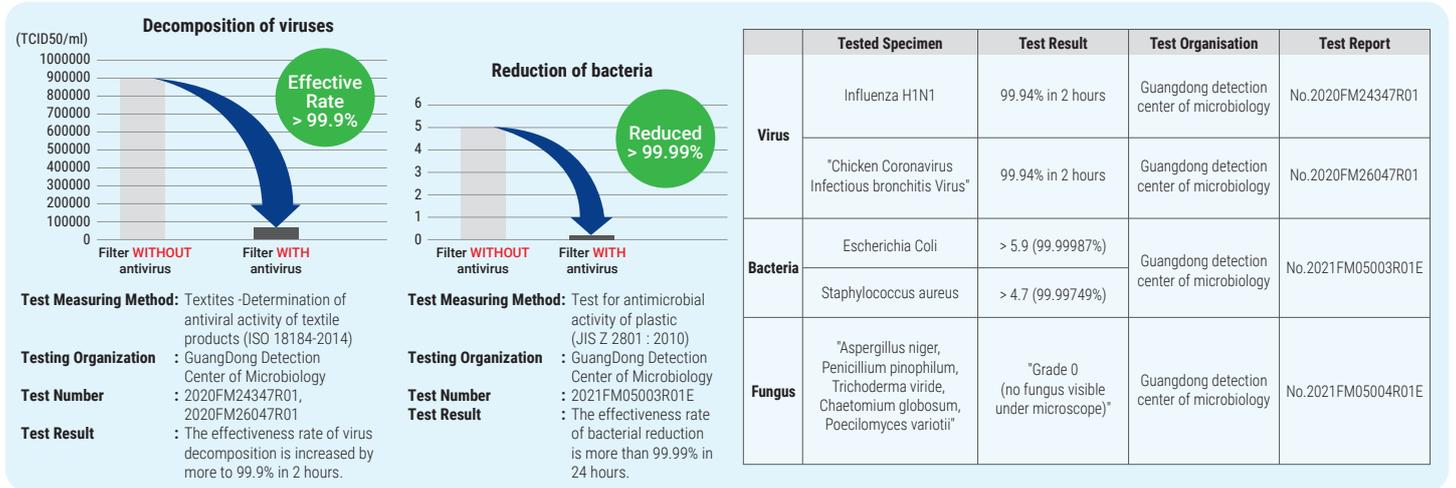

This filter is treated with a positively charged silver ion (supplied as standard for FCFC, FFC and FCC).

- Efficiently draws viruses onto its surface and decomposes up to 99.9%* in 2 hours.
- Deactivate bacteria and inhibit fungal growth on its surface to improve the quality of indoor air for a healthier lifestyle.
- Delivers consistent performance for around a year if filter is cleaned once every 2 weeks.

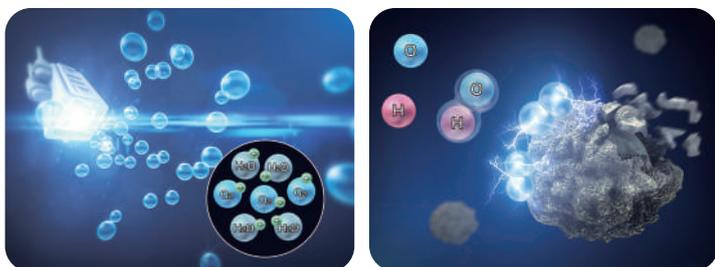

* The effect stated here is effect against viruses which are directly attached on the filter in the experimental facility for 2 hours.

Gin-ION Blue Filter Test Result

The Gin-ION Blue Filter has been tested and confirmed to decompose viruses, bacteria, and inhibit fungal growth on the filter surface.

Better Indoor Air Quality

Advanced i-Plasma Technology

Our advanced plasma ion technology purifies and sterilizes the air by effectively removing airborne contaminants, as well as deactivating harmful bacteria by damaging their microbial DNA and surface structures without causing harm to human."

* Only for Non-Inverter models

Inspired by nature

Elegant Design Panel

Inspired by Nature. Combining with "butterfly" concept into modern ceiling cassette panel design to provide user a totally different outlook which match into current living lifestyle.

Cassette Panel

Malaysia

Good
design
Daikin Ceiling Cassette has won the Malaysia Good Design Award 2015 in recognition of product design excellence, innovation and creativity.

DSL M8

Slim Wired Remote Controller

- Dedicated button for Quiet and Turbo functions.
- Key lock function.
- Real-time timer. (7 days option, 2 events daily).
- Comes with 10m wired cable

BRC51D62

SHIRO Wired Remote Controller (Optional)

- Better External Outlook with Glossy Finishing.
- Display with Backlight for better viewing.
- Room temperature indication.
- Comes with 10m wired cable.

Design And Installation Flexibility (For 50-160 Series Only)

Extreme Low Height Of Units

Installation is possible even in buildings with narrow ceiling spaces.

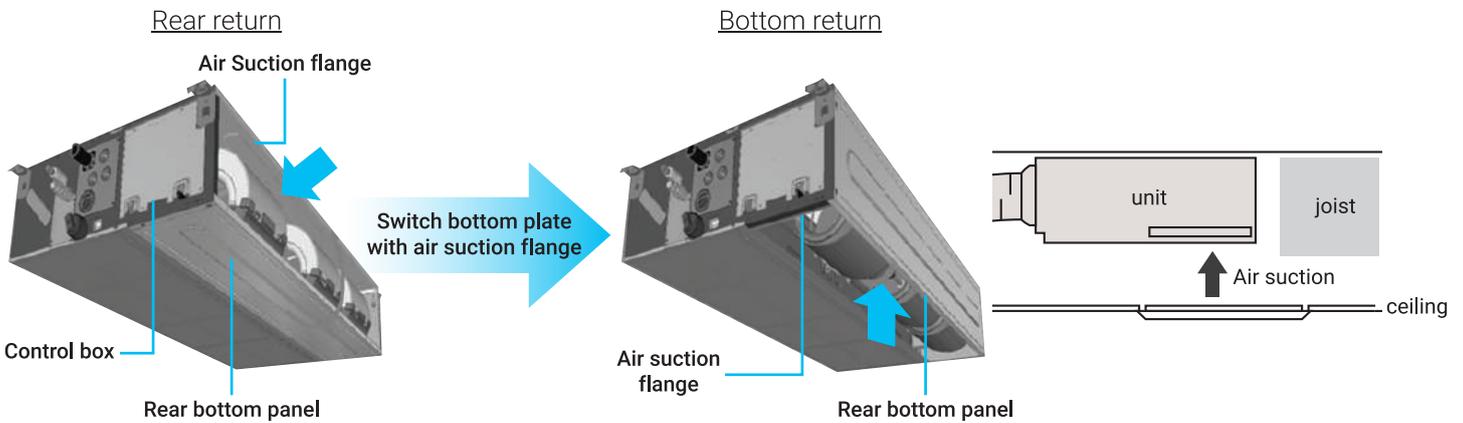

Series	50/60	85	100/125/140/160
Height (mm)	250	250	250
Width (mm)	700	1,000	1,400
Depth (mm)	700	700	700

One of the industry's most compact bodies in the mid-static pressure range.

Convertible Return Air Configuration

Easy conversion from rear return to bottom return is possible to be done on new ceiling concealed to fit according to building structures.

Comfort

Switchable Fan Speed: 3 Steps And Auto

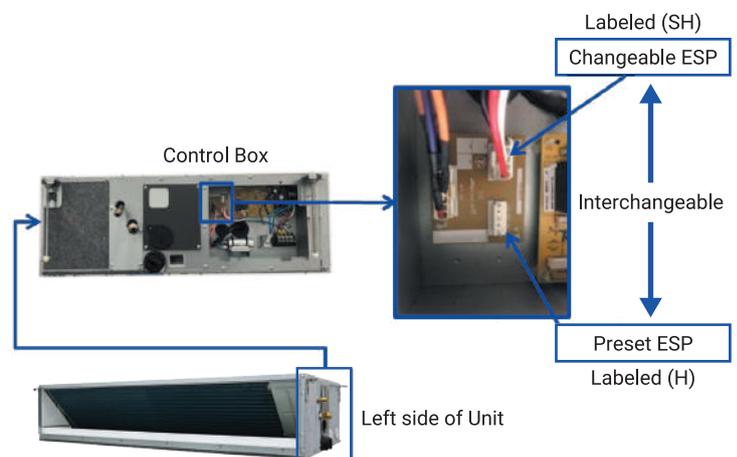

- Control of fan speed up to 3-step.
- The unit has up to 3 different fan speed available for comfort selection.

Easy Selectable External Static Pressure (ESP) (For 50-160 Series Only)

- 2-different ESP can be easily selected by switching the connector inside the control box as shown below.
- According to duct design required for comfort, the adjustment can be done easily during installation at the control box.

Series	50	60	85	100	120	140	160
Preset ESP (Pa)	30	30	30	50	50	50	50
Changeable ESP (Pa)	50	50	50	80	80	80	60

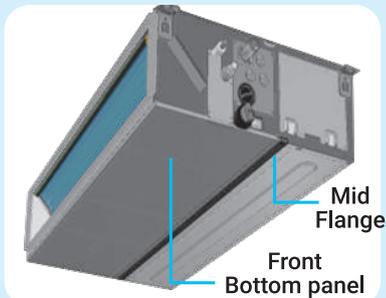

What is ESP (External Static Pressure)

External Static Pressure is the measurement of the total resistance in a duct system that the fan has to work against.

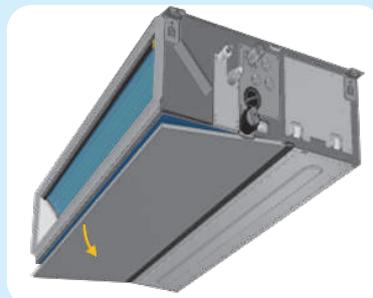

Easy Service Maintenance (For 50-160 Series Only)

Easy Accessible to Drain Pan and Heat Exchanger

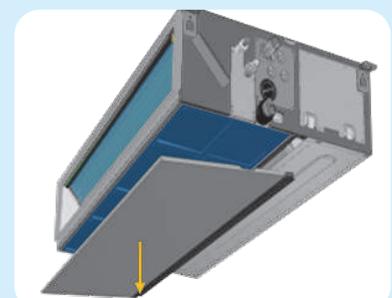

- Drain Pan and Coil can be easily accessible by removing front bottom panel and mid flange.
- Followed by steps as shown below, coil can be accessed once drain pan is removed.

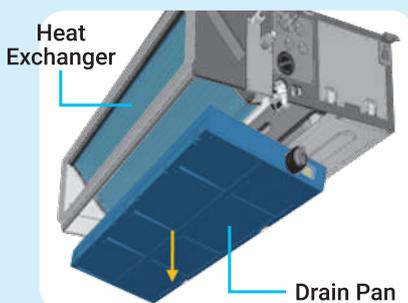

1. Unscrew the front bottom panel and mid flange

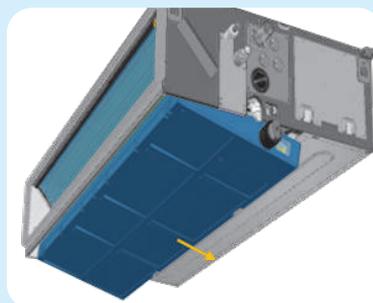

2. Slowly remove the front bottom panel and mid flange

3. Pull the drain pan downwards from the middle section.

4. Free the drain pan by pulling it outwards.

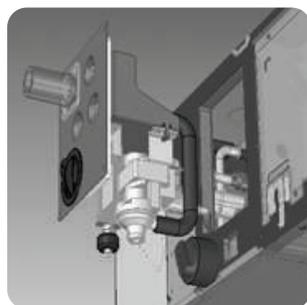

5. Drain pan is successfully removed.

Optional Accessories

Drain Pump Is Ready For Installation

- Drain pump is optional accessory for new ceiling concealed.
- If Drain Pump is required, it could be purchased as accessories and installed at the designated location of the unit.

Part Number: BDU511A160V1

Saranet Filter

- Functions as dust filtration to trap dust in the air.

Part Number: R03084037811 (FDBC35A), 3P557870-1 (50-60 Series), 3P557868-1 (71-85 Series), 3P557863-1 (100-160 Series)

Smart Control (Optional)

NS Splitter
(R50044157819)

This optional NS splitter comes with a network adaptor and together with "GO DAIKIN" app turns a smartphone into a remote controller that can be used inside or outside the home. Together, they help to not only save energy and maintain comfort but also eliminate any worries of forgetting to turn off your air conditioner!

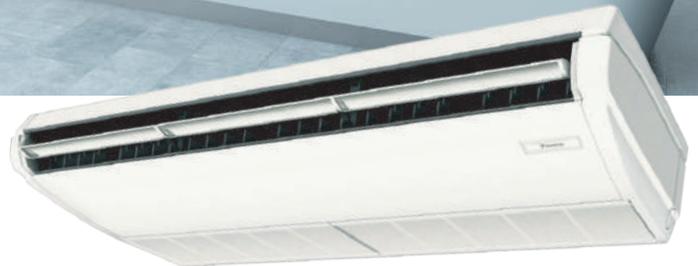

Note: Certain app functions are optional.

- NS Splitter is applicable for all wired models for FFC-A, FCC-A, FDBC-A, FDMC-A, FHC-A, FCFC-A and FDMFC-A

Comfortable airflow travels throughout the room

Inverter - FHFC50/60/71/85AV1

Inverter - FHFC100/125/140AV1

BRC7GA56

Signal receiver unit
(Installed type)
* FHFC100-140A only

BRC7EA66-9

Signal receiver unit
(Installed type)
* FHFC50-85A only

Wireless Remote Controller (Optional)

- Supplied in a set with signal receiver
- Comprehensive functions display

BRC2E61

Simplified Remote Controller (Optional)

- Simple Operation (easy and direct access to basic functions)
- Intuitive Design (user friendly interface)
- Extremely compact and complements any interior design

The Latest Stylish Model

Sophisticated design

Flap neatly closes when not in use (100-140 class).

White colour

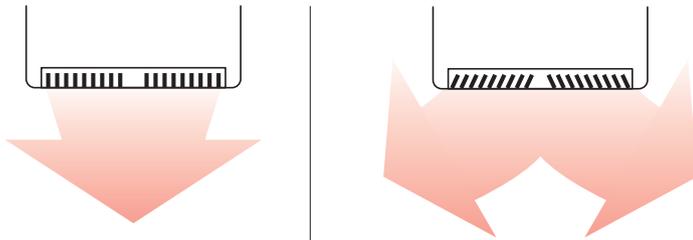

Comfortable

Wide angle airflow

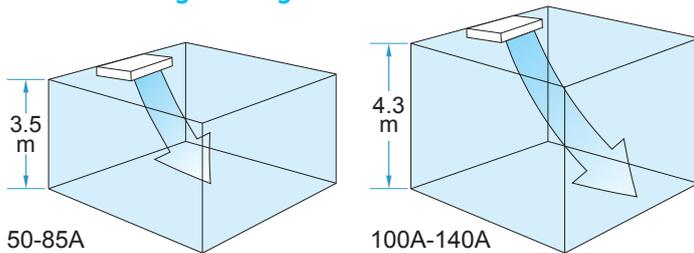

The technology of the DC fan motor (100-140 class), wide sirocco fan, and large heat exchanger combine for greater air flow and quiet operation.

Auto swing (up and down) and louvers (left and right by hand) bring comfort to the room

Louver manually adjusts for straight or wide angle airflow.

Suitable for high ceilings

	50-85A	100A	125/140A
Standard	2.7m or less	3.8m or less	4.3m or less
High ceiling	2.7m~3.5m	3.8m~4.3m	-

Note: Factory settings is "standard". "High ceiling" are set with remote controller by field setting.

Switchable fan speed:

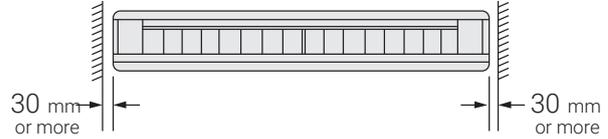

- 2 steps (50-85 class)
- 3 steps and Auto (100-140 class)

Auto airflow rate is available when wired remote controller BRC2E61 is used

Installation Flexibility for Freedom of Design

Flexible installation

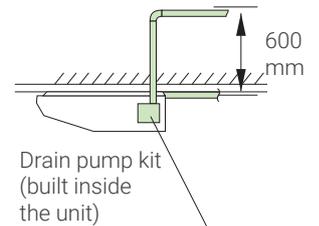

The unit fits more snugly into tight spaces.

* Water used in the test-run can be drained from the air discharge opening rather than from the side as was formerly the case.

Drain pump kit (optional) can be easily incorporated

Drain pipe connection can be done inside the unit. Refrigerant and drain pipe outlets are at the same opening.

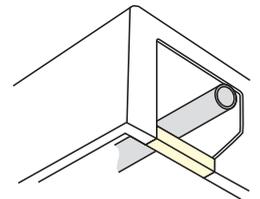

DIII-NET communication standard

Connection to a centralised control system is available without option (100-140 class).

50-85 class requires an optional adaptor.

All wiring and internal servicing can be done from under the unit

Easier piping work for rear side by removable frame (100-140 class).

Easy Maintenance

Drain pump kit (optional) includes a silver ion antibacterial agent that assists in preventing the growth of slime, bacteria, and mould that cause smells and clogging

Non-flocking flap

Condensation does not easily form on and dirt does not cling to non-flocking flap.

It is easy to clean.

Non-flocking flap

Easy-clean, flat surfaces

It is easy to wipe dirt off the flat side and lower surfaces of the unit.

Oil Resistant Grille

Oil-resistant plastic is used for the air suction grille. This satisfies durability in restaurants and other similar environments.

Note: Intended for use in salons, dining rooms and ordinary sales floors. This specification is not suitable for kitchens or other harsh environments.

Maximum air flow, providing cooling to far ends of the room

Non-Inverter -
FHC50-85AV1M9, FHC100-160AV1M

DGS01

Compact Wireless Remote Controller

- Supplied together for user convenience.
- Prominent temperature display.
- Real-time clock display.
- Easily accessible buttons.

DSL8M8

Slim Wired Remote Controller (Optional)

- Dedicated button for Quiet and Turbo functions.
- Key lock function.
- Real-time timer. (7 days option, 2 events daily).
- Comes with 10m wired cable

BRC51D61

SHIRO Wired Remote Controller (Optional)

- Better external outlook with glossy finishing.
- Display with backlight for better viewing.
- Room temperature indication.
- Comes with 10m wired cable

Easy Service Maintenance

Switchable Fan Speed: 3 Steps And Auto

- High setting provides maximum reach.
- Low setting minimises draft.

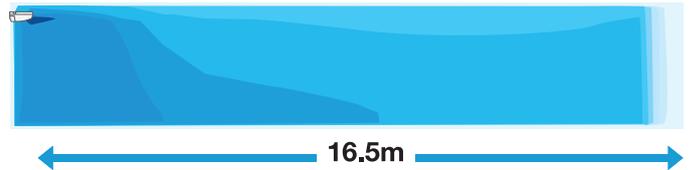

Horizontal And Vertical Air Swing

Airflow direction can be adjusted flexibly through horizontal and vertical louvers manually.

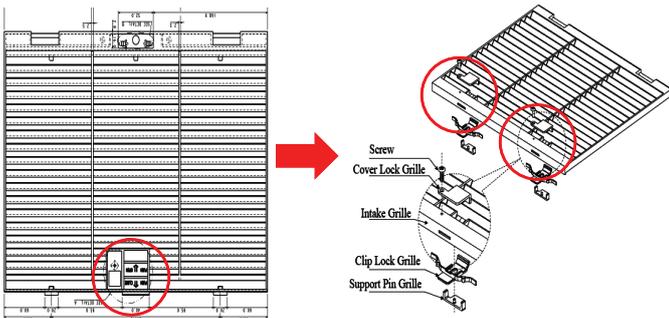

Far Air Throw

Maximum air throw distance up to 16.5m. (For 160 series)

Easy Service Maintenance

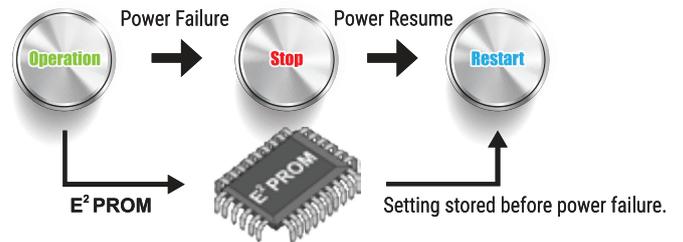

Air Return Grille

New Design - Easy to lock/unlock

Auto Random Restart With Last-State-Memory

- Once power resumes after a blackout, the unit will restart automatically at its last setting condition.
- This eliminate the need to restart manually after each power failure.

Smart Control (Optional)

GO DAIKIN

AWM61A01

This optional network adaptor together with "GO DAIKIN" app turns a smartphone into a remote controller that can be used inside or outside the home. Together, they help to not only save energy and maintain comfort but also eliminate any worries of forgetting to turn off your air conditioner!

Note: Certain app functions are optional.

Design And Installation Flexibility

Installation Flexibility For Freedom Of Design

Uniform height and depth. Compact design for small-capacity models to meet tighter dimensional constraints.

680mm

Series	50/60	85	100/125/140	160
Height (mm)	235	235	235	285
Width (mm)	1,203	1,553	1,903	1,903
Depth (mm)	680	680	680	680

New OUTDOOR Features

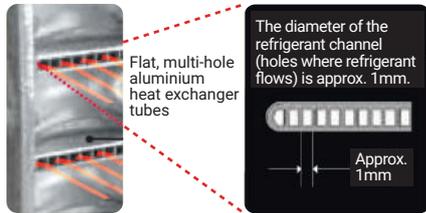

Inverter

Anti-Corrosion Treatment of Outdoor Heat Exchanger Fins

Comes with standard gold fin heat exchanger (RZFC50-71) and aluminium alloy microchannel heat exchanger (RZFC85-140).

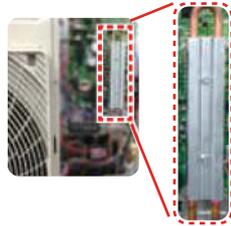

Micro channel coil

Flow of refrigerant

Refrigerant Cooling (RZFC125-140 only)

Daikin's unique refrigerant cooling system helps to protect the printed circuit board and maintains high cooling capacity even during high outdoor temperatures.

Coated Printed Circuit Boards (PCB)

Coated PCB prevent problems caused by humidity and airborne dust. It also protects against salt contained in sea breezes. Both side of the PCB in outdoor units are coated.

Non- Inverter

Anti-Corrosion Treatment of Outdoor Heat Exchanger Fins

Comes with standard blue fin outdoor unit's heat exchanger which are processed using a special anti-corrosion treatment. The surface is covered with a thin acrylic resin layer to enhance the fins' resistance to salt corrosion. *Higher Corrosion Resistance Gold Fin is available (Optional)*

Optional NS Splitter (R50044157819) can be added to get smart control function.

*4 This model comes with standard Wired controller. Optional NS Splitter (R50044157819) is required to be purchased to get smart control function.

*5 For the FFC-A Series, the flap will remain in its last position when switched off.

Comfort Airflow

8 Way Airflow

Discharge of air in 8 directions provides an even air distribution and fast cooling

Auto Fan Speed

Airflow rate is automatically controlled in accordance with the difference between room temperature and set temperature.

Auto Swing

Delivers comfortable air-conditioning to all areas, near to and far from the air conditioner. Airflow direction can be fixed at user's desired angle by remote controller.

Indoor Quiet Operation

Reduce background noise with Quiet Mode, which decreases the sound pressure level by setting fan speed to lowest.

Powerful Mode

Once activated, this feature will engage the indoor fan motor to run at maximum speed for 20 minutes. The turbo airflow enables the desired temperature to be achieved faster, especially in larger spaces.

Operation

Program Dry Function

Dehumidification is microprocessor controlled to prevent abrupt and uncomfortable changes in air temperature. Useful for reducing uncomfortable humidity without uncomfortable cooling of the room.

Fan Only

Unit will only operate with fan which provides airflow without supply of cool air.

Lifestyle Convenience

Indoor Unit ON/OFF Button

Unit can be switched on by pressing physical ON/OFF button on unit.

Signal Receiving Sign

Indication can be seen when air conditioner is switched on.

Remote Controller With Back Light

Lit up display for SHIRO wired controller allows user to use in the dark.

Cleanliness

Gin ION Blue Filter

Filter that deactivates bacteria and inhibit fungal growth and able to trap dust in the air.

Saranet Filter

Filter functions as standard dust filtration to trap dust in the air.

i-Plasma

Our advanced plasma ion technology purifies and sterilizes the air by effectively removing airborne contaminants, as well as deactivating harmful bacteria by damaging their microbial DNA and surface structures without causing harm to human.

Washable Grille

Ceiling Cassette grille can be detached easily and washed.

Worry Free

Auto-Restart With Surge Protection

If there is a sudden power failure, the unit will automatically restart with 64 different recovery patterns according to its last settings. This also prevents a sudden surge of electricity to your power source.

Self – Diagnosis Function

This intelligent feature helps to detect faults of malfunctioning in the system. Warning can be found through display error code in wired LCD remote controller. This information can be found in Installation Manual.

Wiring Error Check Function

Protection to prevent wrong wiring connection for 3 phase models.

Outdoor Blue Fin

Blue fin offers enhanced resistance of outdoor fin towards corrosion.

Outdoor Gold Fin

Gold fin offers higher corrosion resistance than blue fin.

Outdoor Microchannel

Corrosion resistant full aluminium alloy microchannel heat exchanger.

Flexibility

ESP Selection

2-different ESP can be easily selected by switching the connector inside the control box. According to duct design required for comfort, the adjustment can be done easily during installation at control box.

Water Pump

High head drain pump of 700mm that enables higher elevation.

°F/°C Changeover

Set temperature can be set to °F or °C on remote controller.

Control

WEEKLY TIMER (Wired Controller)

Up to five operation ON/OFF settings and temperature settings can be programmed per day and each day of the week.

24-Hour ON/OFF TIMER

Operation starts when the preset time of ON timer elapses and stops when preset time of the OFF timer elapses.

Built-In Network Adaptor (Smart Control)

Pre-installed network adaptor that enables control of indoor units using mobile devices through GO DAIKIN app.

NS Splitter

Device that enables the use of wired controller and network adaptor to function together.

Inverter

Ceiling Cassette

- Remarks:**
1. Due to product innovation, all specifications are subjected to change by the manufacturer without prior notice.
 2. All units are being tested and comply to ISO5151.
 3. Nominal cooling capacity are based on the conditions: 27°C DB / 19°C WB indoor and 35°C DB outdoor.
 4. Sound pressure levels are measured in anechoic chamber according to JIS C 9612 standard and JIS B 8616. During actual operation, sound pressure level will be higher as a result of room specification condition.

Rated Cooling Capacity				Btu/h	30,000	36,000	42,000	48,000	55,000	
				kW	8.79	10.55	12.31	14.07	16.12	
Total Power				W	2,770	3,200	3,660	4,100	4,950	
Total Current				A	12.40	14.80	6.85	7.51	8.73	
COP				W/W	3.17	3.30	3.36	3.43	3.26	
CSPF				Wh/Wh	3.37	3.50	3.57	3.64	3.46	
Power supply				V/Ph/Hz	220-240/1/50	220-240/1/50	380-415/3/50	380-415/3/50	380-415/3/50	
Indoor	Airflow (H/M/L)				cfm	950/810/700	1,260/1,095/920	1,260/1,095/920	1,260/1,095/920	1,400/1,280/1,120
	External Static Pressure (Std/High)				Pa	30/50	50/80	50/80	50/80	50/60
	Sound Pressure Level (H/M/L)				dBA	41/38/35	42/39/36	42/39/36	42/39/36	43/42/39
	Dimension (H x W x D)		Unit			mm	250 X 1,000 X 700	250 X 1,400 X 700	250 X 1,400 X 700	250 X 1,400 X 700
	Unit Weight		Unit			kg	31	40	40	42
Outdoor	Sound Pressure Level				dBA	54	56	58	60	62
	Dimension (H x W x D)				mm	695 X 930 X 350	852 X 1,030 X 400			
	Unit Weight				kg	53	62	79	84	94
Pipe Connection Size	Liquid			mm	9.52	9.52	9.52	9.52	9.52	
Pipe Connection Size	Gas			mm	15.88	15.88	15.88	15.88	19.05	
Maximum Piping Length				m	50	50	50	50	50	
Maximum Piping Elevation				m	30	30	30	30	30	
Heat Insulation				Both Liquid and Gas Piping						

Remarks:

1. Due to product innovation, all specifications are subjected to change by the manufacturer without prior notice.
2. All units are being tested and comply to ISO13253.
3. Nominal cooling capacity are based on the conditions: 27°C DB / 19°C WB indoor and 35°C DB outdoor.
4. Sound pressure levels are measured in anechoic chamber according to JIS C 9612 standard and JIS B 8616. During actual operation, sound pressure level will be higher as a result of room specification condition.

Non-Inverter
